

Starting Monday October 19th we will be kicking off our annual Boosterthon Fundraiser. Last year we raised over \$20,000. As we have had to cancel so many events, including bingo, we are excited that we can safely hold this at this time. It will be much different from last year as we cannot have large groups running together because of the virus. We will however strive to make this as much fun as possible for the kids. On Monday each student will take home a pledge packet. The student is asked to register on funrun.com. It's very simple and straightforward. You search the school and you can also make a cute video to share by just uploading your child's photo. Then you share their information with family and friends so that they can sponsor your child. It can be a flat rate or a per lap rate. If it's a flat rate it will automatically be divided by 30 to get a per lap rate. The classes will all have individual incentives during the week for reaching their goals. One class might get crazy sock day for reaching a class total of \$1 per lap, another class may decide to give a homework pass if their combined class total reaches \$10 per lap. These incentives will be different in each homeroom as the teachers get to pick what's offered. We will share daily schoolwide totals and we have a leaderboard that we update daily to see which class is ahead in their sponsorship. This information will go on the FSA website as well as on the FSA and school Facebook pages. The teachers have a lot of fun too. They get to dress down and get into the fun. Every morning we will print off a report based on sponsorship from the night before and the kids will earn prizes. These prizes will be dropped off daily outside the classrooms and the teachers will hand them out at the end of the day. There are also 3 additional surprise prizes that will pop up during the week. These will come with instructions. Anyone who completes the task will get entered into a drawing for that prize. You do not have to raise money to participate in the run. Registration is free. Every child will receive a t shirt and mask. They will be asked to wear that on their run day, either the 28th or the 29th. There will be a schedule of the times the kids will be outside released closer to the date. If any parent wants to watch they are welcome to stand outside the back fence. We can't safely have parents in the yard this year. As always you must wear a mask and remain a safe distance from others. We have checked with the Department of Health and they said that the kids must wear their masks while running. We will allow a 5 min water break at the end of their run before they head back inside. Thank you all for your support.
